

Jérémy Guerin

Developer

18 ans, born in in Montpellier, France

About me

As a computer science student with several years of study and many projects behind me, I am confident in my ability to adapt and learn quickly in the software development fields.

Having completed most of my projects in fullstack, I have knowledge in many areas of computer science. I am particularly efficient in backend using the python language in a functional or object oriented way.

I am therefore looking to complement my current CEGEP education by working in a computer company and bring my skills in a production setting.

Skills

| | | | |
|-----------|------------|----------|----|
| Python | JavaScript | HTML/CSS | |
| Backend | React | Kotlin | |
| Fullstack | Linux | Windows | C# |
